

## Application Procedures

### Use Suma® Bio-Floor® Cleaner D3.7 on kitchen floors with quarry tile, ceramic tile, or vinyl.

Post "Wet Floor" signs around area to be cleaned. Spray or dispense product with warm or hot water onto the floor or in a mop bucket. Spread diluted product with a clean mop generously to the floor, overlapping mop strokes. For best results, scrub the floor with a brush, especially if the floor has grout. Dry mop or squeegee floor dry or allow floor to air dry before reuse. A potable water rinse is only required for those surfaces that may contact edible product.

### Use Good Sense® SC Fabric Freshener on most fabrics that are colorfast and washable.

Spray fabric evenly until damp. Odors are eliminated as fabric dries. Difficult odors may require a second treatment. Amount of product dispensed will affect the drying time. Allow treated fabric to dry before use.

### Use Soil Release/Bonnet Buff as both a prespray and a bonnet buff.

To bonnet buff, spray use-solution on carpet or yarn bonnet. Clean with bonnet under a rotary floor machine. Rake carpet and allow to dry. To use as a pre-spray: Spray solution on soiled areas and allow to dwell for 5-10 minutes. Extract with rinse. Rake carpet and allow to dry.

### Heavy Duty Prespray Plus is a pH neutral cleaner for prespraying to loosen heavily soiled carpets.

Vacuum area first. Spray carpet and agitate with a carpet rake, extractor brush, shampoo brush or bonnet. Extract and allow to dry.

### Use Revive® Plus SC Maintainer/Rejuvenator daily to clean/maintain floors.

Fill mop bucket or auto scrubber from dispenser. Apply with mop or scrub floor with red pad or equivalent. Trail mop behind scrubber. Do not rinse the floor. Let floor dry completely.

### Use Stride® Citrus HC Neutral Cleaner to clean floors and other hard surfaces.

Fill mop bucket, spray bottle or automatic scrubbing machine from dispenser. Apply to surfaces to be cleaned. For auto scrubber use, trail mop behind machine to pick up any excess solution. Allow to dry.
