

J-Fill®

Application Procedures

Use Suma® Bio-Floor® Cleaner D3.7 on kitchen floors with quarry tile, ceramic tile, or vinyl.

Post “Wet Floor” signs around area to be cleaned. Dispense proper strength solution of product and warm or hot water in a mop bucket. Spread diluted product with a clean mop generously to the floor, overlapping mop strokes. For best results, scrub the floor with a brush, especially if the floor has grout. Dry mop or squeegee floor dry or allow floor to air dry before reuse. A potable water rinse is only required for those surfaces that may contact edible product.

Use Pan-Clean™/MC General Purpose Pot and Pan Detergent to clean pots, pans, utensils, glassware and other equipment.

Dilute with hot water. Soak pots, pans, utensils, glassware and other equipment for 5 to 10 minutes. Scrub to remove grease and other food soils. Rinse thoroughly with potable water.
