

J-Fill®

Application Procedures

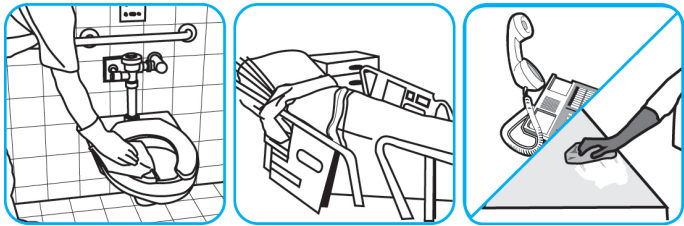

Utilice Virex™ II 256 Limpiador desinfectante y desodorante de un solo paso para limpiar tocadores, fregaderos, pisos y las paredes del lavabo.

Aplique la solución de uso a superficies duras, no porosas. Moje bien la superficie con un paño, trapeador, esponja o rociador, o por inmersión. Deje que permanezca mojada. Seque por frotación o deje secar al aire.

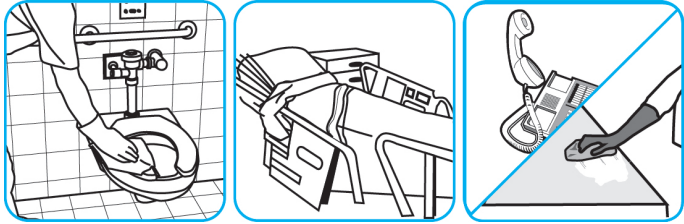

Use Oxivir® 1 one-step cleaner disinfectant to wipe hard, non-porous surfaces.

Pull wipe from canister, wipe surfaces, allowing them to stay wet for one minute. Allow to air dry or rinse according to use instructions on some surfaces.

Use Avert™ Sporicidal Disinfectant Cleaner Wipes to clean, disinfect and deodorize hard, nonporous surfaces in one labor saving step with no rinsing required.

Pre-clean heavily soiled areas. Wipe the surface evenly until visibly wet, and wait for the appropriate contact time (1 minute for most common microorganisms, 4 minutes for *C. difficile*). All surfaces must remain visibly wet for 1 minute (4 minutes for *C. difficile*). If required, wipe surfaces with a clean, damp cloth and let air dry.

Use Crew Clinging Toilet Bowl Cleaner to clean and disinfect toilets and urinals.

Apply product to toilet bowl side or to urinal surfaces. Scrub entire unit, especially under the rim at water outlets. Wait one minute, then flush.
