

Application Procedures

Use Extraction Rinse SC to flush out and remove detergent residues that cause resoiling.

Extract carpet and groom with a clean carpet rake or stiff synthetic broom. Allow to dry.

Use Pro Strip® SC High Efficiency Floor Stripper to remove existing floor finish.

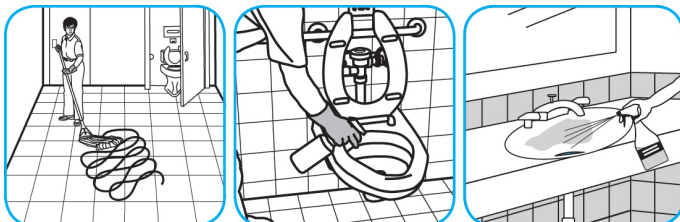

Blockade areas to be stripped. Floors will become very slippery when stripper is applied. Exercise caution.

Use Suma® Bio-Floor® Cleaner D3.7 on kitchen floors with quarry tile, ceramic tile, or vinyl.

Post "Wet Floor" signs around area to be cleaned. Dispense proper strength solution of product and warm or hot water in a mop bucket. Spread diluted product with a clean mop generously to the floor, overlapping mop strokes. For best results, scrub the floor with a brush, especially if the floor has grout. Dry mop or squeegee floor dry or allow floor to air dry before reuse. A potable water rinse is only required for those surfaces that may contact edible product.

Use Crew® Restroom Floor and Surface SC Non-Acid Disinfectant Cleaner to clean restroom toilets, sinks, floors and walls.

Apply use-solution to hard, nonporous surfaces. Thoroughly wet surface with a cloth, mop, sponge, sprayer or by immersion. Allow to remain wet for 10 minutes. Wipe dry or allow to air dry.

Use General Purpose Cleaner to clean most water-safe surfaces.

Dilute with cold water. Fill trigger spray bottle or bucket with use solution. Apply diluted product to surface. Mop or wipe surface and allow to air dry.

Use GP Forward® General Purpose Cleaner to clean any water-safe surface.

Fill mop bucket, spray bottle or automatic scrubbing machine from dispenser. Apply to surfaces to be cleaned. For autoscrubber use, trail mop behind machine to pick up any excess solution. Allow to dry.

Use UHSTM/MC Floor Cleaner to clean burnished, ultra high speed floor finishes.

Dilute with cold water. Apply use-solution with a mop and bucket or an automatic scrubbing machine. Trail mop behind machine to pick up any excess solution. Allow to dry.
