

Application Procedures

Use Tempest™/MC Solvent-Free Cleaner/Degreaser to clean most heavily soiled, hard surfaces.

Apply onto hard surface using spray bottle, mop/bucket or auto-scrubber. Allow to penetrate and lift soils. Pick up solution with clean cloth, mop, or auto-scrubber. Requires no rinsing.

Use J-512™/MC Sanitizer to sanitize washable hard, non-porous surfaces.

Apply use-solution to washable hard, non-porous surfaces: dishes, glassware, silverware, cooking utensils and plastic and other non-porous cutting boards. Spray or immerse objects for 1-2 minutes. Allow to air dry. See product label for complete directions.

Use Prominence™/MC Heavy Duty Cleaner to remove soil from floors without dulling the appearance of the floor finish.

Dilute with cold water. For daily cleaning, use a spray bottle, mop and bucket or fill auto scrubber and use red pads. For Deep Scrubbing, fill auto scrubber and use green or blue pads. Pick up soil and excess cleaner with a tightly wrung out cleaning mop or cloth.

Use Oxivir® Plus Disinfectant Cleaner Concentrate to clean and disinfect hard, non-porous surfaces.

Apply use solution. Let stand for 5 minutes. Wipe or allow to air dry.

Use Suma® Bio-Floor® Cleaner D3.7 on kitchen floors with quarry tile, ceramic tile, or vinyl.

Post "Wet Floor" signs around area to be cleaned. Dispense proper strength solution of product and warm or hot water in a mop bucket. Spread diluted product with a clean mop generously to the floor, overlapping mop strokes. For best results, scrub the floor with a brush, especially if the floor has grout. Dry mop or squeegee floor dry or allow floor to air dry before reuse. A potable water rinse is only required for those surfaces that may contact edible product.
