

Application Procedures

Use Avert™ Sporidical Disinfectant Cleaner Wipes to clean, disinfect and deodorize hard, nonporous surfaces in one labor saving step with no rinsing required.

Pre-clean heavily soiled areas. Wipe the surface evenly until visibly wet, and wait for the appropriate contact time (1 minute for most common microorganisms, 4 minutes for *C. difficile*). All surfaces must remain visibly wet for 1 minute (4 minutes for *C. difficile*). If required, wipe surfaces with a clean, damp cloth and let air dry.
